Personally appeared before me, this August 1, 1906, E. J. Paxton, general manager of The Sun, who affirms that the above statement of the circulation of The Sun for the month of July, 1906, is true to the best of his knowledge and belief.

PETER PURYEAR, Notary Public.
My commission expires January 22, 1908.

Daily Thought.

"It is easy to talk about brotherhood, let us enter into it through the door of deeds."

BRYAN AS A "ROYAL GUEST."

When royalty is to be entertained a list of intended guests is submitted to the royal person so that he or she may strike off the name of any one whose presence is objectionable.

Although Mr. Bryan's association with European royalty has been brief he has adopted this royal custom and even enlarged upon it.

He not only insists upon revising the list of guests at the forthcoming reception to him in New York but he also prescribes the form and manner of entertainment and decrees the scale of contributions.

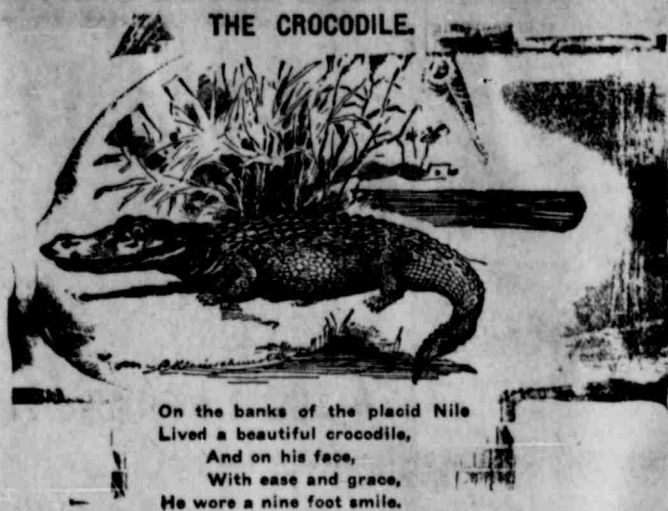

This country has witnessed no greater exhibition of buffoonery than this spectacle of the chief Democratic demagogue aping the customs of European royalty, thinks the Chicago Chronicle.

Bryan has only one step further to go in order to make a declaration of "divine right."—Evansville Journal-News.

In the initial number of the Lyon County Herald, which made its appearance at Eddyville last Saturday, appears an interesting article from the pen of former State Senator N. W. Utley, in which he asserts that he was probably the last Kentuckian who shook hands with and conversed with Dick Tate, the noted defaulting state treasurer of Kentucky. It was in 1888, when Senator Utley was a missionary in the Methodist church in Japan. There he met the man in several different places, conversed with him as to Kentucky politics and Kentucky people. Letters afterward read by Senator Utley in Frankfort, so he writes, tended to strengthen the opinion that the man he met in Japan was no other than Dick Tate.

The business men, every loyal Paducahan should remember the Commercial club's plans to hold a big immigration convention here in October. Secretary Coons has received some very nice letters from the surrounding counties in which they say they will aid in the work, and it is something we Paducahans should all assist. West Kentucky, by a united effort of all the counties, can start a flow of immigrants to it that will benefit every county. That's the proper view of it, and one we should all take. It is the intention to have Governor Beckham, and some of the state officials attend, and it is hoped, and thought they will. So, let's all remember to put in a little work for it whenever we can.

The aldermen will meet tonight, and it is hoped that board will ratify the action of the lower board in giving the park commissioners \$1,500 for their work this year. Give them the funds to start their work.

On the banks of the placid Nile
Lived a beautiful crocodile,
And on his face,
With ease and grace,
He wore a nine foot smile.

and Paducah's park system can be said to be a thing of reality, and, seeing the beauties and benefits of them, the people will soon be clamoring for parks everywhere.

The recent heavy rains have caused some big depressions where the new telephone company has just laid conduits on North Eleventh street. This is the condition in many streets on which construction work has been done this summer and the board of works proposes to demand that all such places be promptly repaired upon appearance.

If Mr. Bryan would content himself with less scalp he would probably stand better with some of the powers that be in his party. This time he has his knife out for Taggart. He certainly likes to drive his own vehicle.

The outing proposed for the poor and afflicted and sick children by the Rescue Mission is a commendable thing and should have substantial support. Notify Mr. Chiles at the Mission if you wish to assist in it.

The board of works has ordered that no maintenance bonds shall be less than 20 per cent of the construction price. In view of the trouble heretofore had about repair work, on guarantee bonds, it is a good order.

One by one the politicians scramble for position in the Bryan band wagon. Tammany is seeking a good seat now, but just watch the silver-tongued orator stop the car and give some of them a transfer.

Cities, as well as individuals, pay for what they get. New York's yearly corporate expenditures are greater than the six next largest cities in the country combined, \$167,060,171. The sum is staggering.

Ethel Barrymore and Mrs. Richard Harding Davis are going to help novelist Winston Churchill in his campaign for the Republican nomination for governor of New Hampshire.

Governor Folk, in going after the Springfield, Mo., mob members this week, has a task some other governors don't envy him, but he is brave enough to do his duty as he sees it.

There is money in the pistol business, of both kinds, holdups and manufacture. Daniel B. Wesson, deceased, of the firm of Smith & Wesson, left an estate of \$30,000,000.

National Democratic Committeeman Urey Woodson did not recognize the local Democrats in his selection of the faithful who are to represent Kentucky at the Bryan reception.

The Sun is considering offering a prize to the one who finds a street in Paducah on which some construction work has not been done this summer.

Bryan has announced that he would not be a candidate for a second term if he is elected president. We think we wouldn't if we were he.

How about your weeds? The board of health is going after violators of its instructions to have them all cut, and you may get caught in the net.

The government wants 500 skilled mechanics for work on the Panama canal, and has opened headquarters in Chicago in its effort to secure them.

Again, "the Russian government has the situation in hand." It would do well to put it in a good safety deposit box this time.

There are a host of good Democrats, seemingly, who should like to be called "Judge," and, it is a nice calling.

Henderson will vote on the proposition, this fall, of issuing \$200,000 of bonds for sewers.

All Paducahans, irrespective of parties, are for John K. Hendrick for attorney general.

Late inventory of Russell Sage's estate, places its value at \$150,000,000.

Mrs. J. E. Baker has returned from a visit in Eddyville.

"JUST LIKE PAPA."

Child Catches Rattler and Carries it to House.

New York, August 9.—Four-year-old Gladys Dittmars, daughter of Raymond L. Dittmars, curator of reptiles in the New York Zoological Gardens, in the Bronx Park, has presented two specimens of snakes to the Zoological Society. One is a rattler two and a half feet long. Two weeks ago Mr. Dittmars took his family to White Lake for the summer. He remained there one day and spent most of the time in the woods looking for snakes. Gladys accompanied her father through the woods and watched him turn over stones looking for reptiles. The next day the child taking a long stick went into the hotel where she was staying in a panic when the little girl walked up to the porch carrying a rattler. Gladys held the reptile firmly just behind the head until one of the men brought a box, into which she dropped it. She said she had found the rattler under a stone, and holding it down with the forked end of a stick, grasped the reptile behind the head "just like papa did."

CRAZED MAN

Throws Child From Fourth Story Window in Cincinnati Today.

Cincinnati, August 9.—Thomas McKenna, a hotel waiter, has been mentally unbalanced for some time, and this morning threw his three-year-old child from the fourth floor of an apartment house on Johns street, then jumped to the pavement himself. The child was dead when picked up and McKenna died on the way to the hospital.

Some "Crossies."

Hon. Dave Cross, of Paducah, is a candidate for police judge. The Democrats of Paducah owe Dave Cross something and they ought to settle it. When the party organization there wants some real hard work done they invariably throw it off on Dave Cross, and, though as poor as Job's turkey, and sometimes not enough clothes on to polish a fife, nor the price of a hot tamale in his rusty jeans, he always drops everything then and there and does that work. He never lets up till he does it well. Then some lazy fellow who loafs about free lunch counters and never hits a lick gets the pie. We country fellows want Dave Cross to have a good job. If he is not recognized we are all coming down there and raise such a rumpus that it will take all the delivery wagons in Paducah to cart off the dead, and pistol smoke will hover over the Ohio river for three long days and three long nights. This will be no two by four Mayfield mob.

P. S. Ed Puryear is a candidate, too. A darned good man. Also Geo. Dinguid. (It is important to the Murray boys that we show no favoritism in this matter.)—Murray Ledger.

Following is from the Billboard, a well known amusement publication: William Deal, representing the City Central Labor Union of Paducah, Ky., visited last week and closed contracts with the Association for attractions for Labor Day in that city.

Mrs. B. E. Reed and daughter, Miss Dorothy, will arrive in the city Saturday on a visit to Mrs. Robert Noble, at her summer home, "Annfield."

SURVEYING FOR
NINE FOOT STAGE

Government Surveyors Will
Reach Here Tomorrow.

The Work, Which Has Been in Progress Sometime, Will Be Completed Next Month.

HOPES FOR THE SCHEME.

The government surveying party which is surveying the Ohio from Caseyville to Cairo for a 9 foot stage, will reach Paducah tomorrow or Saturday. This work has been under way for several years and they expect to finish by Sept. 15th. Another party is surveying from Owensboro to Caseyville. Three of the assistant engineers have been in the Riverside hospital here sick from malarial fever contracted from staying on the rivers so long.

River men who have been hoping and working for the nine foot stage for years are feeling very much encouraged over the developments of the last few years, and it is thought that this great scheme, which was a dream of even the river men of the days before the war, will become a reality.

The Ohio River Improvement Association, which was organized primarily for the purpose, has done some very effective work in its behalf, and every year the prospects for it look more encouraging. The trip of the river and harbors congressional committee, as guests of the association last year, had a favorable effect on the committee, as it saw and appreciated what a big thing it would be for the entire Ohio valley and at the last session of congress a larger appropriation than usual was allotted the river, and for a survey, with the object of having plans drawn for the nine foot stage.

WANTS TO BE A COPPER.

Brother of Assassin Czolgosz Would Remove Stain from Name.

Cleveland, O., Aug. 9.—Michael Czolgosz, brother of Leon Czolgosz, assassin of President McKinley, has applied for a position upon the police force of Cleveland. He said that his motive was to remove the stain from the family name. He has taken both the mental and physical examinations for the position which he covets. He has passed the latter with flying colors, but is fearful of the results of the former. As a specimen of physical manhood Czolgosz ranks far toward the top. He lacks only a quarter of an inch of being six feet in height, weighs 794 pounds and is magnificently proportioned. His strength is far above the average.

FRANKIE NEIL LOSES.

After Twenty Rounds Defeated Man Is Badly Battered Up

Los Angeles, August 9.—Harry Baker was given the decision last night over Frankie Neil after twenty rounds of fighting. Neil showed severe marks of the encounter. His right eye was badly battered and swollen and his left eye and mouth also showed evidence of having received hard punching. Baker showed not a mark at the conclusion of the fight. They were both strong. The fight was at catch-weights.

Hot Days Beneficial.

It is strange we never stop to realize that the hot days are good for us. They are the best, just as they are good for crops. Nature sends the hot days to give us a good "sweating"—if the use of the vulgar word is permissible for in this way it eliminates some of the poisons from our systems. If we would get out of doors, instead of sitting in the shady nooks, and take two or three hours in the open air with the "boiling sun" boiling us right we would feel lots better, and be lots better.

This is a correct theory, and is the theory that prompted the invention of the hot-air treatments I am giving with such success in my practice. When used in connection with Osteopathy it is a specific for the ailments that give us Paducahans the most trouble, malaria, chills and fever and biliousness, and I can in just a few minutes show anyone suffering of these ailments why they yield so readily to the treatment. I can refer you to people you know who will attest to my statements.

If you feel drowsy, and tired; feel like you had a taut band around your head which was being drawn closer all the time; if you are suffering of indigestion of any form, a course of Osteopathic and dry hot-air treatments will bring a quick cure, and do so without the aid of anything but aids to Nature.

My office hours are from 9 to 12 and from 2 to 5, Dr. G. B. Froage, 518 Broadway, Phone 1407.

Good Blood

Good blood, good health; bad blood, bad health; there you have it. Why not help nature just a little and change the bad to the good? Bad blood to good blood; poor blood to rich blood! Ask your doctor how this applies to Ayer's Sarsaparilla, and how it applies to you! Could anything be more fair?

Paducah Boy, Married a Year, Brings
His Bride to Home He Makes for Her

The happiest couple in Paducah today is installed in a handsome little frame cottage at Nineteenth and Madison streets. Although married nearly one year today, they have been together less than 36 hours. In fact six hours after the ceremony was performed the groom left the bride and went out to seek his fortune and prepare a home. It is another verification of the old adage, "Love will find a way."

Mr. Stonewall Pollock, time-keeper in the office of Master Mechanic R. J. Turnbull, of the local Illinois Central, is the groom, and his wife was Miss Clara Ludwigs, of 1701 St. Louis avenue, East St. Louis, Ill. They arrived in Paducah on the night of the 7th and installed themselves in their little home. It was the second time they had been together since the ceremony, and a happier couple can not be found in Paducah today.

The groom is a native of Paducah, born and raised in West Kentucky, near Wickliffe. He came to Paducah eight years ago, and was book-keeper for the firm of Bransford Clark & Co., now in St. Louis. He worked four years for this firm and the remainder of his employment was in the Illinois Central service. He met his wife several years ago and after a short courtship they agreed to marry.

Young Pollock did not have any resources, except his true Kentucky grit. He had no position at the time, but fearing naught he secured the license and at noon on August 26, 1905, the two were married in St. Charles, Mo. Not even the members

of the bride's family knew of the marriage and 6 o'clock found the groom speeding on his way to Kansas City to seek employment. His bride returned home to live with her parents until her husband could provide a place for her.

Young Pollock was unable to find work in Kansas City and was forced to return to Paducah. He went to work as a clerk in the mechanical department of the local Illinois Central. He was time-keeper in the wood-working department; later was stationed as agent at a small station on the Louisville division of the road. He showed that he was a competent railroad man, and the officials were not slow in recognizing his merit.

He was promoted several months ago to the responsible position he now holds. During the months of separation he saved his money and by thrift put away enough to buy him a lot. He denied himself, not even going to visit his wife, but once after the ceremony, which was in February. A few weeks ago he quietly began to build his home. His friends were apprised of the fact of his intended marriage, and on the night of the 5th he left for East St. Louis, bringing back his bride on the night of the 7th.

Pollock is popular with local Illinois Central employees and his friends had arranged a surprise party for him. He eluded them by taking a cab at the depot for home.

It is one of the rarest cases of its kind on record, and it will doubtless be as much surprise to his many friends as it was to the parents of the bride when the young Paducah-an took her away.

RUSSIAN NEWS

IS MORE REASSURING—ORDER RESTORED IN CITIES.

Two Thousand Social Democrats Arrested, Peasants Are Suffering While Crops Rot in Field.

St. Petersburg, August 9.—News from provinces today is more reassuring. The revolutionary agitation has slackened, owing to wholesale arrests made. It is estimated fully two thousand Social Democrats were placed under arrest recently in St. Petersburg. Everything is quiet at Moscow and the revolutionary movement seems to be checked. Corn is rotting in fields and the peasants are refusing to pay anything for it, while women and children throughout districts are starving.

New York, Aug. 9.—A cable to a morning paper from Vienna says:

It is rumored that it is the czar's intention to abdicate. The circulation of this report is ascribed to the reactionary councillors violently opposing Premier Stolypin's reform scheme which the czar supports. The Yan adds that the czar will appoint Grand Duke Vladimir, and Nicholas Nicholasievitch as co-regents.

Terrorists Active.
Warsaw, Aug. 9.—The terrorists are continually attacking and robbing postoffices, government spirit shops, treasuries and the mails. The government-general has ordered that henceforth the inhabitants of the villages, communities and cities, in or near which such crimes occur, shall pay the losses resulting from such robberies.

Subscribe For The Sun.

VISITOR INJURED

DR. CRUTCHFIELD OF WYNEE, ARK., THROWN FROM BUGGY.

Suffers an Injury to His Left Shoulder, Which Is Dressed at Hospital.

From the horse turning suddenly the buggy in which were Miss May Davis, of 329 North Fifth street, and Dr. Edgar Crutchfield, of Wynne, Arkansas, was overturned last night, and both were thrown to the ground. Mr. Crutchfield had his left shoulder broken and Miss Davis was uninjured.

They had been driving and when just beyond Eden's hill the horse shied sharply causing the buggy to turn over. Dr. Crutchfield has been in the city a few days on a visit. His injuries were dressed at the Riverside hospital, and he is doing very well today.

TEXAS STORM LOSS.

Today's Reports From Stricken District Reveal Great Damage.

Fort Worth, Tex., Aug. 9.—Reports from the floods in the territory indicate that the damage will be great. Conservative estimates place loss up to this time at a round million, suffered mostly by the railroads. The M. & K. & T. is making every effort to save its great bridge across the Canadian, but is not hopeful of succeeding. Its tracks are under water near Lindsay, and it is feeding hundreds of passengers on delayed trains. No traffic is passing over this line.

In Texas the floods have passed and people who were compelled to leave their homes have returned.
